$$(x \cdot (3,5 + 5,1 \cdot 1,8))'_x =$$

Obviously

$$= 3,5 + 9,18 + x \cdot (0 + 0) =$$

Obviously

$$= 12,68 + x \cdot 0 =$$

Obviously

$$= 12,68 + 0 =$$

Obviously

$$= 12,68 =$$

Result:

$$= 12,68$$
